

BETHESDA CHILD OF THE MONTH

February 2007

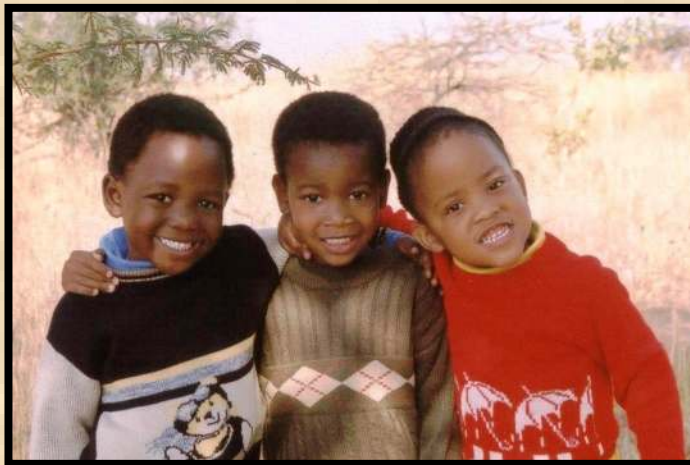

Lethabo -

Lethabo was first introduced in our August 2004 Child of the Month. Abandoned at the local township hospital as a baby, Lethabo had lived there for a year until she was placed in one of Bethesda's first homes, that of Jones and Lenah Phago. Lethabo has recently turned 5-years-old and we marvel at the growth we have seen in the four delightful years that she has had with us.

Lethabo enjoys being the youngest in her family, and can usually be found playing with her toys. She especially cherishes her dolls and loves to take good care of them. Her constant companions are siblings Thandiwe and Peter, who are both in school this year. Their mother is hoping that they can convince Lethabo that

Lethabo
(Lay-TAH-bow)

Thandiwe and Peter

school is indeed fun so that she will be excited to start next year!

Lethabo has a loving personality, and is a comforter and helper in the home. Like all little girls, she enjoys giggling and imitating her mother by issuing "commands to be obeyed." She struggles with fear and shyness, and is hesitant to take on challenges. Pray that she would grow in these areas, and pray as well that she would become healthier physically as she copes with frequent bouts of tonsillitis. We have enjoyed watching Lethabo grow in her knowledge and love of God, and pray He will use her mightily for His purposes.

* Pray for Lethabo *

- That she will enjoy good physical health
- That she will begin to place her trust in God as she confronts fears and challenges
