

BETHESDA CHILD OF THE MONTH

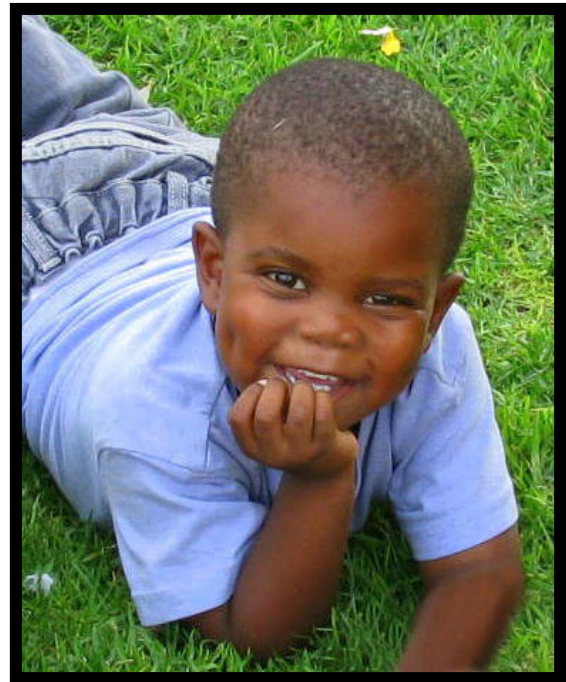

August 2008

Jack

Jack is a sweet, sometimes quiet and solemn five year old. He is a part of the Kolokoto family along with his biological siblings Mpho and Dipuo. He has four new brothers close to his age and really enjoys all the chances he has to play with them.

Jack has many favorite activities. He's rarely bored as there is almost always someone his age to play with in his house. He really enjoys watching movies with his siblings and reading books. He'll seize every opportunity to enjoy these favorite pastimes.

Although Jack is one of the oldest boys in his family, his tendency is to be a follower and not stand up for what he knows is right. As he grows older, John and Primrose hope to help him develop the ability to stand for what is right.

Jack

Tumelo and Jack

They are pleased that Jack can talk very clearly for his age, but are praying that Jack will become better at talking with others outside their family. He also needs to continue to listen to authority and others well so that he can hear and obey their instructions.

It has been exciting to watch the changes in Jack since he arrived at Bethesda in June 2007. All of us here look forward to seeing him continue to grow and change.

Please remember to pray for Jack to understand the truths from Scripture that he is learning at home, especially that he will accept Christ as his personal Savior.

* Pray for Jack *

- That he will be prepared to start school
- That he will come to know the Lord has his Savior
